	 <p>Alpha HEATING INNOVATION (Stock Images)</p>	
EVOKE (7 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ Stainless steel heat exchanger ➤ High efficiency Grundfos pump and hydro block assembly ➤ Single electrode ➤ Easy-access dry-change NTCs ➤ Combined condensate and pressure relief valve connection ➤ Zinc plated expansion vessel to prevent corrosion 	
E-TEC PLUS (10 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ Stainless steel heat exchanger ➤ High efficiency Grundfos pump and hydro block assembly ➤ Single electrode ➤ Easy-access dry-change NTCs ➤ Combined condensate and pressure relief valve connection ➤ Zinc plated expansion vessel to prevent corrosion ➤ Copper pipe tails with isolation valves ➤ Integrated filling loop ➤ Control panel and bottom cover 	
E-TEC SYSTEM BOILERS (5 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ Stainless steel heat exchanger ➤ High efficiency Grundfos pump and hydro block assembly ➤ Single electrode ➤ Easy-access dry-change NTCs ➤ Combined condensate and pressure relief valve connection ➤ Zinc plated expansion vessel to prevent corrosion 	
E-TEC REGULAR (7 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ Stainless steel heat exchanger ➤ New backlit display ➤ Single electrode ➤ Easy-access dry-change NTCs ➤ Optional external pump wiring 	
PROTEC PLUS (3 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ 4 models from 50 – 115kW ➤ 1:10 modulation range ➤ Low emissions (ultra-low NOx<23PPM) ➤ Fully modulating built-in circulator pump ➤ Stainless steel heat exchanger ➤ Weather Compensation compatible; with external probe ➤ Heating and hot water control with use of the DHW diverter kit ➤ Simple thermostat control or optional zone manager features ➤ Back-lit LCD interface 	

	<ul style="list-style-type: none"> ➤ Open or room sealed flueing options 	
INTEC 40GS2 (5 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ ErP compliant boiler with integrated GasSaver technology ➤ 35% reduction in gas used to provide hot water ➤ Same connections as a standard combi boiler with no additional exposed pipework ➤ Low electrical consumption ➤ Isothermic stainless steel heat exchanger ➤ High efficiency Grundfos pump and hydroblock assembly ➤ Backlit LCD with push button controls and detailed operational information ➤ Easy-access NTCs on front of pipes ➤ One-piece cartridge diverter valve ➤ Clip-on DHW temperature sensor to prevent corrosion 	
FLOWSMART (5 YEAR WARRANTY)	<ul style="list-style-type: none"> ➤ Exceptional energy efficiency ➤ Ideal for households with above average hot water demands ➤ Delivers hot water for long periods ➤ High flow rate even when demand is high ➤ Simple installation ➤ Space efficient ➤ Low voltage PV immersion kit available 	

BAXI

(Stock Image)

<p>BAXI 200 COMBI (3 YEAR WARRANTY)</p>	<p>Outputs 24kW and 28kW- To suit most property sizes Compact size- Fits in a 290mm deep cupboard Simple controls- Quick and easy to use High efficiency- Can save money on your heating and hot water bills Very quiet in operation- Can be installed in your home without disturbing you Optional stand off frame- Neater installations for hidden pipework</p>	<p>The Baxi 200 is a high efficiency boiler; simple to use and provides plenty of heating and hot water, whenever you need it. The boiler is compact and small enough to fit in a kitchen cupboard, yet modern and attractive enough to have it on show. It has the option of smart controls that can be operated using a smart phone or tablet and the reliable Baxi technology is backed by a three year parts and labour warranty* for peace of mind.</p>
<p>BAXI 200 HEAT (3 YEAR WARRANTY)</p>	<p>Outputs: 12kW, 15kW, 18kW, 24kW and 30kW- Wide range of outputs to suit most requirements Compact size- Cupboard fit for discreet siting No pump overrun or permanent live needed- Easier to install, without lifting floorboards Top central flue- Easy replacement for existing boilers</p>	<p>The Baxi 200 Heat, at just 19.5kg, is the lightest boiler available on the UK market*. Small enough to fit into a cupboard, it has a contemporary style that will also fit with any modern interior.</p>
<p>BAXI 400 COMBI (5 YEAR WARRANTY)</p>	<p>Outputs 24kW and 28kW- To suit most property sizes Compact size- Fits in a 290mm deep cupboard Simple controls- Quick and easy to use High efficiency- Can save money on your heating and hot water bills Very quiet in operation- Can be installed in your home without disturbing you Optional stand off frame- Neater installations for hidden pipework Rigid filling loop- For a neater finish</p>	<p>The Baxi 400 is a high efficiency boiler; simple to use and provides plenty of heating and hot water, whenever you need it. The boiler is compact and small enough to fit in a kitchen cupboard and has a rigid filling loop that is easy to use and discreetly hidden out of sight. It has the option of smart controls that can be operated using a smart phone or tablet and the reliable Baxi technology is backed by a five year parts and labour warranty* for extra peace of mind.</p>
<p>BAXI 400 HEAT (5 YEAR WARRANTY)</p>	<p>Outputs: 12kW, 15kW, 18kW, 24kW, 30kW- To suit most property sizes Compact size- Cupboard fit for discreet siting No pump overrun or permanent live needed- Easier to install, without lifting floorboards Rear flue option- For reduced boiler footprint and improved look</p>	<p>The Baxi 400 Heat, at just 19.5kg, is the lightest boiler available on the UK market*. Small enough to fit into a cupboard, it has a contemporary style that will also suit any modern interior. It also has the option of a top or rear flue, allowing for easy replacement for old, standard efficiency rear flue boilers. The rear flue option gives it a neat, attractive appearance.</p>
<p>BAXI DUO-TEC COMBI (7 YEAR WARRANTY)</p>	<p>7-year parts and labour warranty- For complete peace of mind Outputs: 24kW, 28kW, 33kW, 40kW- Suits most styles and sizes of property Exceptional flow rate (up to 16.4 litres per minute)- Enjoy greater comfort and convenience, even in bigger properties Energy Saving Trust recommended- Save up to £300 a year on fuel bills Dedicated 28kW LPG model- Suitable for properties without mains gas</p>	<p>Reliable and easy to install, our best-selling boiler is endorsed by the Energy Saving Trust, so you can be assured of its energy efficiency.</p>
<p>BAXI MEGAFLO SYSTEM (7 YEAR WARRANTY)</p>	<p>7-year parts and labour warranty- For complete peace of mind Outputs: 15kW, 18kW, 24kW, 28kW and 32kW- Suits most styles and sizes of property Exceptional flow rate (up to 16.4 litres per minute)- Ideal for larger homes, great for showers Energy Saving Trust recommended- Save up to £300 a year on fuel bills Built-in timer- Easy to set and control Built-in frost thermostat- Suitable for siting in garages and lofts</p>	<p>The Baxi Megaflo System boiler is designed for homes with a high demand for hot water, or with more than one bathroom. Installed with a hot water cylinder, such as the Heatrae Sadia Megaflo Eco, it will satisfy all your hot water requirements and heat your home. It is an Energy Saving Trust endorsed product, so it will lower your energy bills compared with old, standard efficiency boilers, and reduce your carbon footprint*.</p>
<p>BAXI PLATINUM COMBI (10 YEAR WARRANTY)</p>	<p>10-year parts and labour warranty- For complete peace of mind Outputs: 24kW, 28kW, 33kW and 40kW- Suits most styles and sizes of property Exceptional flow rate (up to 16.4 litres per minute)- Enjoy greater comfort and convenience, even in bigger properties Energy Saving Trust recommended- Save up to £300 a year on fuel bills Built-in 24 hour timer- Easy to set and control</p>	<p>The Baxi Platinum Combi is our top of the range boiler. It is an Energy Saving Trust endorsed product, so you can be assured of its energy efficiency.</p>

Product	Description	Image
<div data-bbox="544 300 1050 517" data-label="Section-Header"> <h1 style="text-align: center;">MAIN</h1> </div> <p data-bbox="121 528 1505 580" style="text-align: center;">Main gas boilers are straightforward to install, service and easy to use. And they help you meet all the latest legislation requirements in an energy efficient and affordable way.</p>		
<p>Combi boilers</p>	<p>Combi boilers heat water instantly when the hot water tap is turned on. This means there is no need to store water in a cylinder and no need for a tank in the loft – making them the perfect choice for homes where space is at a premium.</p>	
<p>System Boilers</p>	<p>System boilers are perfect for homes with more than one bathroom or with a high demand for hot water. They generate hot water that is stored in an unvented hot water storage cylinder, usually sited in the airing cupboard.</p>	
<p>Heat Only Boilers</p>	<p>The lightweight Main Eco Compact Heat has the option of a top or rear flue, making it a straightforward replacement for old, standard efficiency rear flue models. The rear flue option gives it a neat, attractive appearance.</p>	

(Stock Image)

Combi Boilers		Combi boilers are better suited to smaller households with one bathroom. They are the full package in one compact unit supplying heating & hot water.
System Boilers		System boilers are suited to homes with multiple bathrooms and as they only require a cylinder to store hot water, they are perfect for homes with little or no loft space.
Heat Only Boilers		Often considered the tradition boiler, heat only boilers require a separate hot water cylinder and cold-water storage tank and are perfect for homes with multiple bathrooms.
