Ebre Mono Basin Mixer

Chrome finish, Brass body, 40mm ceramic disc cartridge, 15mm flexi tails, Tilt and turn temperature and flow control

To maintain the surface finish, simply wipe with a mild detergent with a soft damp cloth. Dry using a soft cloth.

Burlington[®]

Burlington Claremont Deck Mounted Bath Pillar Taps

Sometimes there is nothing quite as elegant as complete simplicity. The Burlington Claremont Deck Mounted Bath Pillar Taps are beautifully curvaceous and feature four spoke tap handles that bring together period design with contemporary technology. Underneath the domed collars are ceramic disc cartridges that allow for an effortless quarter-turn of the tap heads to control the water flow. Crafted from the finest solid brass and with white ceramic indices that indicate the hot and cold taps, these taps will work perfectly in combination with a freestanding, traditional bathtub where minimalism is also key.

Suitable for both low and high water pressure, they also come with a Neoparl flow straightener and aerator to ensure a consistent and splash-free stream of water with every use.

Features:

- Deck mounted bath pillar taps
- Suitable for low and high water pressure
- Manufactured from solid brass
