

## **PRORAD RADIATORS (10 YEAR WARRANTY)**

Radiators are used in steam and hot water heating. Heat is distributed throughout your home in a variety of ways. Forced-air systems use ducts that can also be used for central air conditioning and heat pump systems. Radiant heating systems also have unique heat distribution systems.

Prorad Central heating panel radiators are part of the Stelrad radiator range and these panel radiators, known as the “Professionals Choice”, give you great top quality and efficient central heating radiators but at a budget radiator price.

	Type 11 (Single Convector)	Type 21 (Double Panel Single Convector)	Type 22 (Double Convector)
