WATERPROOFING SYSTEMS

DREAMING OF A WETROOM

Make this dream reality with Aqua4ma's waterproofing system. Aqua4ma is a wall & floor cladding system that is installed under your tiles, giving you 100% protection against leaks.

100% WATERPROOF

Aqua4ma is a revolutionary wall and flooring system that is 100% waterproof and provides the basis of the ultimate wetroom or shower enclosure.

STRONG AND EASY TO INSTALL

This unique system makes use of rigid UPVC panels that are extremely strong and easy to install.

FULLY TILEABLE SURFACE

The surface of Aqua4ma is suitable for all types of tiles to ensure the shower can be finished to the highest specification.

EASY TO CHOOSE

Step 1 - choose a Floor4ma shower base or Linear Deck Kit that suits your enclosure or wetroom size.

Step 2 - Decide how much of your wall and floor you wish to be protected and choose the Aqua4ma wall & floor panels to suit this size.

EASY & QUICK TO INSTALL

Requiring only basic DIY skills to fit, Aqua4ma is easy and quick to install. Watertight joints between panels and trays are created using a "solvent weld" process. The solvent is applied in the join, which physically welds the pieces together, bonding them so they become one.

3 WAYS TO USE AQUA4MA

These images show the Linear Deck Kit and Aqua4ma floor and wall panels. The Floor4ma Shower Deck Kit can be used in the same way as the Linear Deck Kit.

1. Wet Tray Area

2. Full Wet Floor

3. Full Wetroom

DECK KITS

Aqua4ma Deck Kits can either be use on their own as a Wet Tray, or combined with the Aqua4ma Wall and Floor Panels to create a wet room.

Linear Deck Kit

A modern sleek base option where, both base surface and drain insert are tileable. The built in fall ensures water drains away and out of the stylish linear waste.

This gives a high quality look and feel compared to most other anti-slip trays, where the anti-slip surface is applied after production.
- **Antibacterial** - All Zamori trays are impregnated with a bacteria and mould lighting "Zemoic" agent. The antibacterial property of Zamori trays means increased hygiene and easier cleaning.
- **Patent Re-inforcement** - Zamori trays are acrylic capped and feature a patented steel reinforcement frame within the tray. This ensures strength, rigidity and a lifetime of use.

SENSIO LIGHTING

Sensio Lighting is a family run business with over 15 years experience and knowledge of providing high quality LED lighting to the bathroom market.

Sensio place focus on designing and developing the latest cutting edge lighting solutions, first.

Alongside this, education is at the top of the priority list. Lighting is often perceived as complex and is therefore sometimes dismissed completely when purchasing a new bathroom. DECORATIVE WATERPROOF WALL BOARD

WHY NUANCE

- Many luxurious finish options
- Nuance boards mimic the look and texture of natural stone and marble for a truly special look.
- Postformed (curved) edges
- Edges and corners are finished off with a rounded end. This looks great and eliminates the needs for unsightly edging strips.
- Easy cleaning and maintenance
- With no joins or grout cleaning means no more than a simple wipe down.
- Almost invisible joins
- Nuance gives you one single surface with almost invisible joins. There is no need for grouting and unlike other walling systems Nuance doesn't require unsightly finishing strips.
- 100% waterproof
- Panels are made from a patented compound that is totally impervious to water. This is superior to other similar products that have a wood core and can swell if the surface is compromised.
- Highly versatile
- Nuance can be used on walls around the bathroom for waterproofing and decorative purposes.
- Highly cost effective
- Comparing the cost of fitting Nuance boards against tiles, Nuance usually comes out as the winner. Not only on overall cost of the product but also on fitting costs.
- Quick and easy installation
- Nuance panels can be cut and installed in a matter of hours. This saves you money and time as the fitting will cost you less compared to equal coverage of tiles.
- Matching laminate worktops
- You can match your worktop to your wall panels with laminate worktops from Nuance.
